French Rails Engineer with 10 years of expertise in Ruby, Data analysis, DevOps and more. I bring a passion for innovation, a collaborative approach, and a commitment to delivering scalable, high-quality solutions. Full resume available on my website

WORK EXPERIENCE

Senior Rails Software Engineer
Pennylane

11/2025 - 04/2026

An experience in a unicorn scale-up in fintech where I led a complex permissions project and experimented advanced AI development More details in portfolio.

Senior Rails Software Engineer (Freelance)
Faktus

02/2025 - 10/2025

An experience in a startup using cutting-edge technologies. A good playground for experimentation with AI boosted programming and pattern refining More details in portfolio.

Data Engineer (Freelance)
Welligence

11/2024 - 01/2025

A mission with a US based company where I was acting as a Data engineer and a bridge between US and Vietnamese team. More details in portfolio.

Devops Auto-Formation
Self-Directed Learning

04/2024 - 10/2024 *Prague*

Designed and automated a scalable infrastructure on AWS using Terraform + certification

Rails Software engineer (Freelance)
RailEurope

10/2022 - 04/2024 *Prague*

A freelance assignment for a multinational company specializing in the sale of train tickets and passes. The role involved extensive communication with external APIs and the integration of payment service providers. More details in portfolio.

Rails Software engineer (Freelance)
Hostnfly

10/2021 - 05/2022 *Paris*

8 months freelance mission in a Parisian startup specialized in house or flat renting on famous online platforms. The mission was focused on the synchronisation with Airbnb by using external APIs More details in portfolio.

Back-end Ruby developer
MyJobGlasses

10/2018 - 06/2021 *Paris*

Back-end Ruby on Rails developer in a start-up company. Since it was a growing startup and I stayed nearly 3 years I ended up doing more than just development. More details in portfolio.

Full-stack developer
Webtales

01/2018 - 10/2018

First real work experience. I learned about Back-end and Front-end technologies on several projects. The company was specializing in Google AMP technology. More details in portfolio.
